

Ratchet clutch for FBB Gearbox I

The ratchet clutch for FBB Gearbox I is a key spare part to your FBB welder. Sabatec produces several different sizes in-house and also overhauls worn out clutches for you. The release torque of the clutch is adjustable from 25-50 Nm.

SABATEC ratchet clutches are also available for single chains, if your FBB welder already has received a speed upgrade.

Please check the table below to find the right clutch suitable to your machine.

For conveyor chains

SABATEC Art. No.	Description	Machine
